Draft	0.97 m
Weight	254 kg
Sail area	~8 m ²

The 2.4 Metre originated from Stockholm in 1983 by local yacht designers who used the "R Metre" rule to create a single-handed keelboat the 2.4mR. It is a thoroughbred racer that has the complexity of a sophisticated keelboat, without the high costs, and the fingertip feeling of a dinghy. As a sister to the bigger 6m, 8m and 12m yachts, she possesses the typical powerful Metre boat sailing style.
