

3193 Sailing Cup 2015

Information for visiting sailors at Beaumaris Yacht Club

Welcome to Beaumaris Yacht Club for the 2015 3193 Sailing Cup. Below is some general information to help with your visit to BYC.

Parking

The adjacent carpark is ticketed and heavily policed, so if you aren't lucky enough to possess a Bayside Council beach parking permit and don't wish to pay the exorbitant parking fee, your best bet is to drop your boat off and park your car either on Beach Road or in Haydens Road (directly opposite BYC off Beach Road). Parking on Beach Road is only permitted after 10am.

Access issues on 1 February

Access to the Club will be limited until 10.45am as the Challenge Melbourne Triathlon is occurring on the same day. We are working to make access arrangements with the organisers however at this stage it is suggested that access should only be attempted after 10.45am.

Lunch

Is it highly recommended you order your lunch at the canteen as soon as you arrive at BYC. This will help the canteen team greatly and will help to prevent any hungry sailors on the race course. We understand that the late access to the club may make this hard however we will do everything we can to work around it.

Trailers

There is some very limited space in the carpark to put trailers however the best place to store them is on the beach itself. Our local parking inspectors don't take kindly to trailers left in carpark spaces.

Changerooms and showers

Men's and women's changerrooms and showers are available at the club. Please don't leave valuables in the changerrooms, they can be stored securely at the canteen but the best place is inside your (locked!) car.

Information session

There will be an information session for all sailors on the upper deck of the clubhouse at approximately 1pm. This session will cover the sailing for the day, starting procedures, entry and exit through the reef and so on.

The reef

There is a large beach area at BYC for preparation/rigging of boats, and the Beaumaris reef provides a spacious, safe and calm launching and retrieval space for off-the-beach boats. Information on how to safely navigate through and round the reef will be provided at the information sessions.
