Weigh in notes:

Instead of weighing in each team, we will ask teachers/coaches to self report their team weights. They can either declare that they can't have a combination with less than 300kg, or provide a list of the team and their weights. This information will be kept by the chief umpire and if an umpire has a concern about the weight of a Div 1 team, this information will be consulted. The weight of a Div 1 team can be protested by the umpire or a competing team, in that case the team sailing will be weighed to determine if they are eligible to race.
