

# Air Fills

Members can get an air fill any Wednesday night the clubhouse is open, subject to there being an Approved Compressor Operator at the club.

Air fills are available for a donation of \$10 per fill. Alternatively, for a \$75 donation, members can obtain a 10 Fill Card.

Tank fills are restricted to financial members who have kept their dive tanks in test.

If you would like to grab an air fill, please see the Canteen Officers on any Wednesday night. They will either take your \$10 donation or clip your Air Fill Card, then give you a tag for you to hang on your tank. Then take your tank to the compressor shed to be filled.

Please note, only Approved Compressor Operators are allowed to use the Club Compressors. Approved Compressor Operators are listed on the [revolutionise.com.au/urgq/](http://revolutionise.com.au/urgq/) site.

URGQ also owns a portable compressor that we take away with us on diving trips when necessary.
