Underwater Research Group of Queensland
Club House Tank Fill Log Sheet

1. Only Registered Compressor Operators can use the Compressor
   a. See list on Revolutionise (https://www.revolutionise.com.au/urgq/)
2. All tanks must be in test with a unique identifier clearly visible
3. Tank Fill Log must be completed for every individual tank, the compressor operator must confirm the unique identifier and test date.
4. Every tank is to be individually noted, tested and signed for by both the owner and the operator.
5. If the CO alarm sounds put the tank aside and Bleed Airlines. Completely empty tank that was open while the alarm sounded and refill.
   a. As a check after refilling retest the tank with the portable CO Tester.
