Approved Provider Application

Become a Water Polo Australia Approved Provider

The Water Polo Australia Approved Provider Program is designed for independent organisations delivering water polo activities outside the traditional club structure. The program allows providers to register participants with WPA while retaining full control of their own programs, branding, pricing, venues, staffing and customer relationships. Approved providers can connect their participants to the wider water polo community and access applicable WPA registration and insurance arrangements for approved activities, subject to program requirements and policy terms

This application is conducted in accordance with our Data Collection Privacy Policy.
